

Recommendation

I can highly recommend Klara Sofie Svendsen. I have known Klara since July 2007. Klara is a person who is very personable and treats the guests with respect and charms them with her outgoing personality. She gives 110% in everything. Klara is a fast learner and is very systematic. Klara has a positive attitude. Klara brings good recommendations and new ideas to her team. She is highly respected on her team (which is over 40 people) and is frequently put in the position to train and motivate others in regards to service and sales techniques. Klara can start and finish a job efficiently and effectively. Klara can juggle many tasks at one time in an extremely busy environment, and stay calm in very stressful situations while keeping a smile on her face. Klara can work at a very fast pace. Klara can sell anything, and go above and beyond the guests expectations.

Klara has also attended all (11) Sticks'n'Sushi classes which include present and historical information about all of our products and services, included in this are two different extensive service classes, a host class, and an attitude class which can be used in conjunction to any job.

In a restaurant, or café setting she can see when a table needs to be cleaned off, or when a guest needs more service. She also treats her co-workers and guests with respect and politeness. Klara is always on time or early. Klara is responsible and has acting managerial responsibilities when the manager is not there.

I wish only the best for Klara, and to whom this may concern; please feel free to contact me if you have any questions regarding Klara and her work she has done for our company, I cannot recommend her enough to your team.

Best regards,

Ginn Carstensen
